

Hiroshi Tanaka

h.tanaka@example.jp | +819012345678 | Osaka, Japan

PROFILE

Principal Engineer with experience across C++, Rust, Distributed systems. Comfortable working with colleagues across teams, and used to picking up unfamiliar systems.

EXPERIENCE

Principal Engineer — Rakuten

Apr 2023 - Present

- Built and maintained C++ services supporting day-to-day operations at Rakuten.
- Worked across the team on Rust and Distributed systems, from design through to release.

Staff Engineer — LINE

Apr 2021 - Mar 2023

- Worked across the team on Rust and Distributed systems, from design through to release.
- Reviewed changes, wrote documentation and supported colleagues using Distributed systems.

Senior Engineer — Mercari

Apr 2019 - Mar 2021

- Reviewed changes, wrote documentation and supported colleagues using Distributed systems.
- Improved reliability of existing C++ systems and reduced manual work.

Engineer — Cookpad

Apr 2017 - Mar 2019

- Improved reliability of existing C++ systems and reduced manual work.
- Built and maintained Rust services supporting day-to-day operations at Cookpad.

Engineer — DeNA

Apr 2015 - Mar 2017

- Built and maintained Rust services supporting day-to-day operations at DeNA.
- Worked across the team on Distributed systems and C++, from design through to release.

Engineer — GREE

Apr 2013 - Mar 2015

- Worked across the team on Distributed systems and C++, from design through to release.
- Reviewed changes, wrote documentation and supported colleagues using C++.

Engineer — CyberAgent

Apr 2011 - Mar 2013

- Reviewed changes, wrote documentation and supported colleagues using C++.
- Improved reliability of existing Rust systems and reduced manual work.

Engineer — NTT Data

Apr 2009 - Mar 2011

- Improved reliability of existing Rust systems and reduced manual work.
- Built and maintained Distributed systems services supporting day-to-day operations at NTT Data.

Engineer — Fujitsu

Apr 2007 - Mar 2009

- Built and maintained Distributed systems services supporting day-to-day operations at Fujitsu.
- Worked across the team on C++ and Rust, from design through to release.

Junior Engineer — Hitachi

Apr 2005 - Mar 2007

- Worked across the team on C++ and Rust, from design through to release.
- Reviewed changes, wrote documentation and supported colleagues using Rust.

Intern — Toshiba

Apr 2004 - Mar 2005

- Reviewed changes, wrote documentation and supported colleagues using Rust.
- Improved reliability of existing Distributed systems systems and reduced manual work.

EDUCATION

BEng Information Science

Kyoto University — 2004

SKILLS

C++ · Rust · Distributed systems
